psy-ebnerlab@psych.ufl.edu

What will I do in the study?

- 2 visits on UF's campus:
 - Visit 1: includes a non-invasive Magnetic Resonance Imaging (MRI) scan to measure brain blood flow as well as a few short questionnaires (~3 hours)
 - Visit 2: includes physiological and cognitive tasks as well as a few short questionnaires (~3.5 hours)
- 1 remote, at-home questionnaire package (~40 minutes)
